TOPIC

M22 CONNECTIONS FOR WORKSHOP SERIES ELECTRIC
PRESSURE WASHERS

MODEL REFERENCE

P1415EN	P1615EN	P1815EN	P2014EN
P1715EN	P1915EN	P2115EN	P2314EN

QUICK DESCRIPTION:

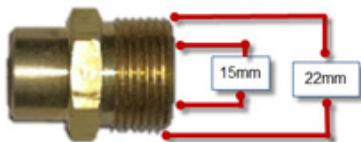

PLEASE BE AWARE THAT THE M22 CONNECTION FOR THESE UNITS IS DIFFERENT THAN ALL OTHER PRESSURE WASHERS BE MANUFACTURES THAT HAVE M22 CONNECTIONS.

FIXES:

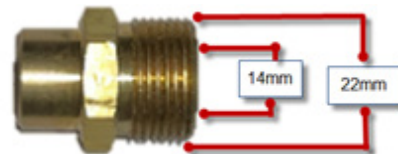

THE OUTSIDE THREAD DIMENSIONS ARE 22MM, BUT THE INSIDE “PILOT” DIMENSION OF THE WORKSHOP ELECTRIC PRESSURE WASHERS IS LARGER AT 15MM, RATHER THAT OTHER BE PRESSURE WASHERS THAT USE THE SCREW-TOGETHER CONNECTION THAT HAVE A 14MM “PILOT”. CUSTOMERS LOOKING FOR A REPLACEMENT HOSE MUST USE THE REPLACEMENT HOSE LISTED (P/N 90500003BE). IF THE CUSTOMER IS JUST EXTENDING AND NOT REPLACING THE HOSE YOU CAN RECOMMEND THE FOLLOWING:

- 85.225.229N - HOSE WITH M22/M14 CONNECTIONS
- 85.300.159 - M22/M15 FEMALE TO M22/M14 MALE FITTING
- 85.300.149 - M22/M14 FEMALE TO M22/M15 MALE FITTING
- 85.300.166 - M22/M14 MALE TO M22/M14 MALE FITTING

M22 CONNECTION FOR WORKSHOP SERIES ELECTRIC PRESSURE WASHERS

M22 CONNECTION FOR ALL OTHER BE PRESSURE WASHERS

P/N 85.300.149 M22/M14 Female to M22/M15 Male Adaptor

P/N 90500003BE
